Sizing instructions

Finding the right size for each patient is easy:

1. Measure mid lower circumference (D). This leaves 2 or 3 choices.
2. Measure axilla circumference (G). This leaves 1 or 2 choices.
3. Measure wrist circumference (C). This leaves 1 or 2 choices.

If there are still 2 options left, we recommend choosing the larger size for ease of donning, overall comfort and ultimate compliance. Either size selection will deliver the desired therapy.

Sizing instructions

1. Measure palm circumference, this leaves 1 or 2 choices.
2. Measure wrist circumference (select gauntlet).
