

# JOBST® UlcerCARE

JOBST® UlcerCARE™ enables effective management of hard to heal wounds on the lower leg while offering ease of use for patients and care givers - the perfect combination for providing patients with an improved quality of life.

## JOBST® UlcerCARE™ Compression System:

- Provides graduated compression of 40 mmHg, the recommended pressure for the healing of these types of wounds
- Is a 2-in-1 stocking system designed for patient's self-management to facilitate easy changing of the wound dressing and to allow for improved personal hygiene (e.g. bathing and skin care)
- JOBST UlcerCARE Liner provides mild compression (17mmHg) for the non-ambulatory patient to help manage lower leg oedema during bed rest
- Outer stocking comes with a zipper on the left or right side for comfortable closure on the opposite side of the wound. It is removed at night and applied first thing in the morning
