

Item number 1000021329

Pants, ABENA Pants, XL2, orange colourcode, Premium

- ✓ Super soft – for optimal comfort
- ✓ Secure fit due to the high number of lycra threads
- ✓ High performance core with Top-Dry Technology
- ✓ Support healthy skin balance
- ✓ 360° leakage protection

Product Description

ABENA Pants is our Premium range of disposable pants that can be worn like normal underwear with absorption levels covering a wide range of needs. The products are made from breathable and super soft material for optimal comfort. The waist band with high number of lycra threads offer a secure and snug fit for the active use. The high performance core with Top-Dry Technology ensures fast absorption and a dry surface even after multiple voids, maintaining skin integrity. The combination of leakage barriers (lengthwise and cross barriers) and elastics offer 360 degree leakage protection around the product. When combined, these functionalities keep the skin in balance and maintains a natural pH skin balance.

The odour system minimises unpleasant smells. The wetness indicator with graduation scale (except size XS1) guides the user and caretaker to the product with the right absorption level.

Specifications

Because of the products composition it has an expiry date from the production date on:	5 years

Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Dispose with household waste.
Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

Disposable pants for light, moderate and heavy incontinence, which can be worn as normal underwear. It is especially suitable for self-assisted and active users, but also a good choice for demented, rheumatic or troubled users.

Put on the disposable pants as you would underpants, without touching the inside surface of the pad. After use and when changing, tear open the sides. When both sides of the pants are torn open, roll it up and secure it with the built-in z-tape (except XS1), and throw it out.

Product size recognition using color codes, names, and numbering system.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

The product does not contain latex.

Leakage barriers in the leg cut and around the absorbent core help prevent leakages and provide an optimal fit.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odour control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal odour arises from the product.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
